

Robinson New Orleans Fire Insurance Atlas

SOUTHEASTERN ARCHITECTURAL ARCHIVE
COLLECTION 124

Atlas of the City of New Orleans, Louisiana, E. Robinson. Detail of plate showing Lee Circle.

SCOPE and CONTENTS

Map
1883
One volume

One fire insurance atlas for the city of New Orleans, Louisiana. Atlas covers the entire city at the time of 1883, and illustrates blocks with buildings of individual properties. Buildings are color

coded to indicate materials of which they are constructed. Notes and symbols provide additional information. Atlas was drawn on a fairly small scale, resulting in a sacrifice of detail. Also, this atlas was based on earlier atlases made by John F. Braun in 1874; 1877 (see SEAA Collection 123), and information in the Robinson is not always current to 1883. Published as *Atlas of the City of New Orleans, Louisiana*. New York: E. Robinson, 1883. The atlas was based on surveys by John F. Braun, New Orleans surveyor and architect, compiled by civil engineers E. Robinson and R.H. Pidgeon. Engraving was done by A.H. Mueller of Philadelphia. For Braun maps, see SEAA Collection 123.

PROVENANCE

Atlas has been in the collections of Howard-Tilton Library, Tulane University since ca. early 20th century.

ACCESS

This collection is housed in Tulane University Libraries' Southeastern Architectural Archive (SEAA) and requires an advance appointment for use. For further information, call (504) 865-5699, or email seaa@tulane.edu. The unauthorized use, including, but not limited to, publication of the materials without the prior written permission of the Southeastern Architectural Archive is strictly prohibited. All inquiries regarding permission to publish should be submitted in writing. Please see our [Permission to Publish Guidelines](#).
