Also included are records from predecessor office of Douglass V. Freret, operative from 1934 through 1946. Included are project drawings, correspondence, and photographs. The collection also includes small travel sketches created by Freret while he was a student at the Ecole de Fontainebleau, France (1923) and while traveling in Mexico (1937).

Collection 40/Rev. 04/19/2016/KW/1
Douglass V. Freret was born in New Orleans, Louisiana. He received his undergraduate degree from Tulane University, and a master’s of architecture degree from Cornell University. He also studied at the Ecole de Fontainebleau des Beaux Arts in France. He worked for a short time for architects York and Sawyer in New York. He returned to New Orleans from there to work with architects Favrot and Livaudais until 1933. He was a commissioned officer in the Naval Reserve during World War II, and trained at the University of Michigan in naval architecture. In 1946, he partnered with Albert J. Wolf to form the firm of Freret and Wolf.

Albert James Wolf was also born in New Orleans. He received his B.A and B.F.A. from Yale University. After graduation, he worked as a draftsman for Douglass Freret. He left Freret’s office to work with the United States Corps of Engineers during World War II. After Freret’s death, Wolf continued to operate the firm until 1980 on his own. Wolf learned bookbinding in his retirement, eventually operating a studio known as L’Atelier Le Loup. He donated his bookbinding services to Tulane University Libraries’ Special Collections Division and his work may be identified by his trademark stamp.

PROVÉNANCE

The bulk of the records were given to Tulane in 1975 by Albert J. Wolf, Jr. Wolf continued the firm until 1980, when he gave the remaining records.
