SCOPE and CONTENTS

Product catalogs, brochures, and other publications
Late 19th century – 1990
20 linear feet

Catalogs of building supply companies of the late 19th century to the 1980s. Included are catalogs for decorative plasterwork, hardware, roofing, millwork, plumbing, windows, kitchen/bath products, etc. Some catalogs are stamped by the regional supplier of non-Louisiana companies’ goods. And, a few catalogs illustrate Louisiana buildings as examples of how products were used. For Louisiana and New Orleans titles, the Louisiana Research Collection (LaRC) is the primary resource at Tulane.

Several of SEAA’s and LaRC’s trade catalogs were digitized and included in the Internet Archive’s Building Technology Heritage Library. Researchers can access these catalogs, and other institution’s catalogs, online, without consulting the physical copies.

PROVENANCE

Catalogs were given by various donors along with other records and separated to form this collection. Additional catalogs were transferred from other Tulane Library departments. New additions are received through donations on an irregular basis. Catalogs are not purchased by SEAA.

ACCESS

This collection is housed in Tulane University Libraries’ Southeastern Architectural Archive (SEAA) and requires an advance appointment for use. For further information, call (504) 865-5699, or email seaa@tulane.edu. The unauthorized use, including, but not limited to, publication of the materials without the prior written permission of the Southeastern Architectural Archive is strictly prohibited. All inquiries regarding permission to publish should be submitted in writing. Please see our Permission to Publish Guidelines.
PREFERRED CITATION

Architectural Trade Catalogs, Southeastern Architectural Archive, Special Collections Division, Tulane University Libraries.

INVENTORY

Additional titles are in boxes and on shelves that are not in inventory.
